# 27-30

August 2026

Passione Engadina is the international gathering of classic cars, where for three days the most beautiful Italian vehicles take on mountain passes and special stages.

But there is much more: it is a celebration of Italian cars that have written the history of style and automotive engineering worldwide. Masterpieces that combine engineering and beauty that still today move and inspire.

Yet it's not only about driving. Passione Engadina also means encounters, friendship, conviviality: an opportunity to share the same passion, exchange experiences and spend three intense days together in a unique atmosphere.

We chose to call the 2026 edition The Italian Job for simplicity, but its meaning goes far beyond that: it is a tribute to the many marques that, with their history and style, built the myth of the Italian automobile. 2026 will be a special year, we will celebrate 15 years of Passione Engadina with an edition full of ideas and surprises, designed to be truly unforgettable.

## The selected cars

Applications to take part in the 15th edition are open to 120 cars, divided into the following categories:

- The untouchables (Classics produced up to 1986)
- The challengers (Younger Classics and Youngtimers up to 2006)
- The lightning strike (Modern cars, at the sole discretion of the organizer)

## Julius Baer Challenge

28-29 August

In 2026, our two-day regularity tour will return, aiming to combine the pleasure of driving with the value of being together. Not only fascinating routes, but also stops designed to encourage encounters and conviviality, in an atmosphere that perfectly reflects the spirit of Passione Engadina. The program is being finalized and will soon be shared: a chance to experience a new journey, with the same passion as always.

## Ladies' Cup

27 August

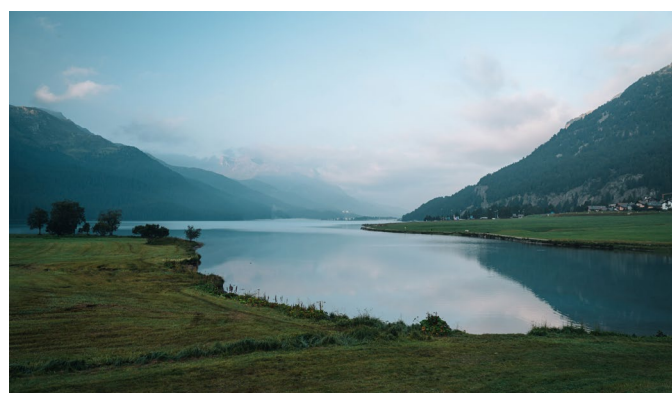

Ladies' Cup a competition entirely for women, where teamwork is what matters most. The ladies compete in pairs, seeking the right harmony to tackle the regularity trials and win the coveted prizes. Precision, complicity, and a playful spirit make this challenge unique, always with the joy of having fun and sharing the experience together.

## Next Gen Cup

27 August

A project we created to bring the younger generations closer to classic cars, with the goal of preserving this important heritage. The Next Gen participants (up to 25 years old) join the cup in a team with one parent or with each other. Throughout the year, they form a close-knit community that works to select promising young talents, who will then present their project or start-up to the audience during the Next Gen Speech.

## Breathtaking landscapes

Rightly called Top of the World, the concentrated beauty of St. Moritz and the whole Engadin remains the true attraction, completing the passion for cars with breathtaking scenery shaped by the magnificent mountains.

**Masterclasses**

Passione Engadina is also about curiosity and culture. Every year, on Saturday afternoon, meetings are held with leading personalities from different fields, offering insights and reflections in short talks open to all participants. A chance to broaden horizons, discover new perspectives and be inspired by themes that go beyond the automotive world.

29 August  
**Disco night**

After the gala dinner, the host of Passione Engadina swaps his tuxedo for the mixer, taking control of the music as dj Paolone. A cult moment where you can get carried away by the electrifying atmosphere, dancing and hanging out until the first light of dawn.
